

# South Kitsap Fire and Rescue

## **MESSAGE FROM THE CHIEF**

First, all of us at South Kitsap Fire and Rescue want to thank you for your support! Working in a community like South Kitsap is a privilege we do not take for granted. In 2023, we are committed to being more visible in our community in non-emergency times, talking with you, asking questions, and answering yours. community needs with a purpose!

Our number one challenge in the fire district is that we are critically unstaffed. We have been working hard to find creative ways to meet the growing needs of our community. We have evaluated our current station assignments and how they are staffed. We are currently analyzing what apparatus we have in our stations. Through these processes we continue to come to the same conclusion; South Kitsap Fire and Rescue's ability to provide services in a timely

manner can only be accomplished by hiring additional firefighters and paramedics.

We believe our responsibility to the community is to always evaluate and always improve our service. The need for firefighters has not decreased. In fact, the urgency is near critical for our community. Hiring additional firefighters for our community will accomplish three things for South Kitsap. First, it will reduce response times by having more fire and EMS units available to respond. Next, it will make our community safer by having more fighters available to respond to simultaneous calls. Finally, it will increase firefighter safety and health by reducing illness and injury caused by fatigue.

We will continue to do the work our We are committed to doing the work our community needs, as a team of professionals, always evaluating and always improving. We do this because we care. We care about our community. We care about your safety. We look forward to working for you in everything we do and face these challenges together. As a community, we can solve these challenges.

> Thank you, Chief Faucett

## **COMMUNITY RESPONSE**

sented. As our community and calls for our daily staffing remain at 19. service grow, it has become more and more challenging to provide our residents with the level of service you all deserve.

SKFR is the largest and busiest of all the accomplish this goal and for us to align average increased to 233 calls per outcome, regardless of the situation we on-duty firefighter and response times face. of 8 minutes and 18 seconds. For the

Annual 9-1-1 Call Volume

Regardless of their role within our other four fire districts in Kitsap organization, all the professionals and County, the average annual calls per volunteers at SKFR are proud to serve firefighter was 135 for 2022. This our community and committed to workload on our firefighters resulted in providing the best service possible. This a dramatic increase in on-the-job injuis particularly true of the 19 firefighters, ries or other illness, which prevents us staffing our six career stations 24 hours from increasing our daily minimum respond in your time of staffing. We expect this injury and need, with the goal of improving the response time trend to continue outcome of whatever situation is pre-increasing as call volume climbs, should

Our goal is to provide the high-quality service our residents deserve, while understanding the economic realities we all live in. Personnel are essential to fire districts in Kitsap County. In 2022, with regional performance, we would we responded to 12,708 calls for need to add 21 firefighters. Based on service, a 6% increase over 2021, contin-this, we project reductions in the averuing a trend we have seen over the last ages of annual calls per firefighter and decade. In 2013, SKFR implemented response times to 173 and by 60 daily minimum staffing of 19. In that seconds respectively, with a 50% reducyear, our call volume was 8,222, repre-tion in time loss due to on-the-job injury senting annual averages of 144 calls for or other illness. However, static or a every on-duty firefighter and response reduction in staffing would have the times of 6 minutes and 57 seconds. By opposite effect on each of these areas, comparison, in 2022, the annual degrading our ability to achieve the best
